Professional Statement

My Name is Deepam Kochar, after working in Diamond Industry, I am overwhelmed and excited to transition my career into cybersecurity and apply my skills in problem-solving, attention to detail, critical thinking and continuous learning. I am committed to build my expertise in this field and I value the importance of securing digital assets, protecting organizations from cyber threats, safeguarding people's security. Although I am very new to the field, I am eager to learn and apply my skills in areas like network security, threat analysis, incident response and more.

Through my studies and coursework in Google's Cybersecurity Course, I have gained a strong understanding of key cybersecurity concepts, developed some hands-on skills, and excited to apply them in real-world scenarios. By applying my strengths and enthusiasm for technology, has driven me the path to cybersecurity and prepared me to take the next step in my career.
